MAGMA, le groupe volcanique !

Entre les différentes mises à jour en cours, il fallait qu'une nouvelle brochure fasse son apparition.

Encore un choix difficile, mais je souhaitais changer de l'ordinaire avec un groupe qu'un ami m'a fait découvrir alors que j'écoutais Ange ou CSN & Young, et là, scotché et surpris, il est vrai que par un moment je ne suivais plus trop vu que mon pote s'est mis à parler en Kobaïen, langue que je ne maîtrise toujours pas, comme les autres d'ailleurs !...

Que dire de plus, à part vous laisser découvrir tous les vinyles d'un «Petit Groupe Français» qui a su s'exporter dans le monde entier jusqu'à la frontière du Soleil Levant.

Cordialement
Yehl

MAGMA, the volcanic group!

Between different updates over, we had a new brochure makes its appearance.

Still a difficult choice, but I wanted to change from the ordinary with a group that a friend showed me while I was listening to Angel or CSN & Young, and there stuck and surprised, it is true that a I followed over time too because my friend began to speak Kobaïan, a language that I do not always control, like the other way! ...

I say more, except to let you discover all the vinyl of «Small Group French» who was able to export worldwide to the border of the Rising Sun.

S	Neuf (scellé)	Le disque est encore sous son emballage d'origine.	Le disque est encore sous son emballage d'origine.
M	Comme neuf	La pochette est comme neuve, mais elle n'est plus scellée.	Le disque est absolument parfait, comme neuf, mais il n'est plus scellé.
NM	Parfait	La pochette est parfaite, pouvant néanmoins comporter de très minimes signes d'usure. Par contre, le dessin artistique ou la photo doivent être aussi impeccable que possible	Le disque est parfait. Un frottement peut être constaté sur le disque, mais doit être vraiment moindre. Il ne doit y avoir aucun effet sur la qualité sonore du disque. Si c'est le cas, même minime, il ne pourra plus être considéré comme NM.
EX	Excellent	La pochette peut avoir quelques très discrètes rayures et/ou des petits plis.	Le disque montre des signes d'avoir été joué (marques lumineuses sensibles), mais la perte de qualité sonore est pratiquement inaudible.
VG+	Très bon	La pochette présente des signes de manipulations évidentes : extrémité légèrement cornée, étiquette du prix, plis. Mais aucun défaut majeur. Il se peut aussi qu'elle soit en parfait état mais présente un poinçon ou une extrémité biseautée.	C'est l'état le plus courant des disques de deuxième main. Les disques ont quelques rayures qui n'affectent pas la qualité sonore. Certains crépitements peuvent être audibles sur des platines très sensibles.
VG-	Bon	La pochette est usée avec des plis, des marques, des décollements, une usure des bords, des décolorations, un début de marque circulaire du disque sur la pochette.	Le disque a des rayures et marques qui affectent la qualité sonore avec éventuellement quelques craquements et/ou sautements sur quelques pistes.
G	Passable	L'état de la pochette est proche de celui de VG- avec en plus des écritures, un papier gondolé à cause de l'humidité, des déchirures et/sur les bords ...	La qualité du son est détériorée par les nombreuses lectures, il y a du souffle, des sautements ou des craquements répétés et nuisibles. On ne distingue pratiquement plus les sillons du disque.
B	Mauvais	La pochette est très abîmée avec des déchirures, des traces et marques d'usure un peu partout.	Le disque n'est plus jouable correctement à cause des trop nombreuses rayures et défauts de surface. Le disque peut être cassé, dans ce cas il mérite sa place au catalogue uniquement s'il est rare.
NA	Non applicable	La pochette est manquante ou ce code n'est pas applicable à ce type d'articles (Pochette neutre blanche ou noire, livres, merchandising, ...).	Le disque est manquant ou ce code n'est pas applicable à ce type d'articles (livres, merchandising, ...)

NM	Perfect	The cover is perfect, however, may have very minimal signs of wear. By cons, line art drawing or photo must be as flawless as possible.	The disc is perfect. Friction can be found on the disk, but must be really low. There should be no effect on the sound quality of the disc. If so, however small, it can no longer be considered NM.
EX	Excellent	The cover may have some very discreet stripes and / or small folds.	The disc shows signs of having been played (light sensitive brands), but the loss of sound quality is inaudibly practice.
VG+	Very Good	The cover shows signs of obvious manipulations: tip slightly horny, price tag, folds. But any major fault. BIBLIOGRAPHIE

Magma fondé en 1969 à Paris en France par le compositeur-batteur-chanteur **Christian Vander**. Cette formation est à l'origine du genre musical baptisé **Zeuhl**, mêlant rock, jazz, avant-garde et chant choral.

Le groupe a exercé une influence inestimable sur le jazz rock et l'avant-garde musicale à travers le monde et a fait connaître des musiciens français et étrangers de premier ordre, comme **Didier Lockwood**, **Jannick Top** ou **Claude Engel**, parmi de nombreux autres.

Le groupe connaîtra une carrière en pointillés avec des changements fréquents de musiciens (près de 150 musiciens sont passés dans **Magma**). En 1973, la formation acquiert une renommée internationale avec la création de l'œuvre majeure de **Christian Vander** la trilogie **Theusz Hamtaahk**.

L'album **Köhntarkösz** connaîtra également du succès. Néanmoins, la formation de **Vander** n'a jamais connu le succès commercial de certains groupes de rock progressif tels que **Genesis** ou **Yes**. On peut constater dans les nouvelles compositions à partir de 1978, l'apparition d'influences soul, rhythm and blues, voire funk dans le chant du leader-batteur-compositeur, que l'on peut entendre dans l'album **Attahk** (1978), dans les «live» à **Bourges** (1979), à **Bobino** (1981) et dans l'album **Merci** (1984).

Le groupe est mis en sommeil à partir de 1983, au profit d'**Offering**, **Magma** est réactivé en 1992 et tourne régulièrement en France mais également dans toute l'Europe, aux États-Unis et au Japon depuis cette date. À l'occasion du 40^e anniversaire du groupe, **Magma** s'est produit durant toute l'année 2009 dans un nombre important de salles et festivals en France ainsi qu'à l'étranger (Allemagne, Japon, Norvège).

BIBLIOGRAPHY

Magma was founded in 1969 in Paris, France by the composer-singer-drummer **Christian Vander**. This training is the origin of the genre called **Zeuhl**, mixing rock, jazz, avant-garde and choral singing.

The group has an influence on the priceless jazz rock and avant-garde music in the world and has made known French musicians and foreign first-class, as **Didier Lockwood**, **Jannick Top** and **Claude Engel**, among many others.

The group will experience a career dotted with frequent changes of musicians (nearly 150 musicians have passed through **Magma**). In 1973, the training acquired international fame with the creation of the masterpiece of **Christian Vander's trilogy Theusz Hamtaahk**.

The album will also see **Köhntarkösz** success. However, the formation of **Vander** never had the commercial success of some progressive rock bands such as **Genesis** and **Yes**. It can be seen in the new compositions from 1978, the emergence of influences soul, rhythm and blues, funk and even in the song leader-drummer-composer, as you can hear in the album **Attahk** (1978) in the «live» in **Bourges** (1979), **Bobino** (1981) and the album **Merci** (1984).

The group is shelved in 1983 in favor of **Offering**, **Magma** is reactivated in 1992 and runs regularly in France but throughout Europe, the United States and Japan since then. On the occasion of the 40th anniversary of the group, **Magma** has happened throughout the year 2009 in a number of venues and festivals in France and abroad (Germany, Japan, Norway).
