THE CLASH, l'ultime Tome

Encore un nouveau tome regroupant la discographie dite "Non Officielle" du groupe.

130 albums vinyles et CD viennent compléter et clôturer la production de ce groupe qui a su intégrer à sa musique des sonorités différentes en puisant à la source des racines musicales de ses membres, parmi lesquelles le punk, le rock, le rockabilly, le reggae, le ska ou encore le dub.

Ainsi, The Clash est un des premiers groupes blancs à assimiler le reggae sur leur premier album et leur composition (White Man) In Hammersmith Palais en 1979).

C'est pourtant l'envie de s'inspirer de nouvelles sonorités qui pousse le groupe à se séparer.

THE CLASH ultimate Tome

Yet another tome comprising the so-called "Unofficial" group discography.

130 vinyl albums and CD complement and close the production of this group was able to integrate his music different sounds by tapping into the source of musical roots of its members, including punk, rock, rockabilly, reggae, ska or dub.

Thus, The Clash is one of the first white groups to assimilate reggae on their first album and their composition (White Man) In Hammersmith Palais in 1979).

Yet it is the desire to learn new sounds that pushes the group to separate.

Cordialement
Yehl
